II. Additional Information about the Proposed Consent Decree

The proposed consent decree would establish deadlines for EPA to take action pursuant to CAA section 110(k) on certain SIP submissions by the State of New York. First, on September 28, 2015, the State of New York made a SIP submission to EPA intended as a revision to the Proposed 2015 Ozone Infrastructure SIP. On September 2, 2021, EPA signed a final rule to approve in full the non-interstate transport provisions of the SIP (86 FR 49252), and Plaintiff agrees to dismiss its claim regarding this portion of the Proposed 2015 Ozone Infrastructure SIP submission. For the interstate portion of the Proposed 2015 Ozone Infrastructure SIP submission, the proposed consent decree would require EPA to take final action by April 30, 2022. If, by February 28, 2022, EPA signs for publication a proposal of full or partial disapproval and a proposed federal implementation plan (FIP) to cover those transport provisions, the EPA shall then have until December 15, 2022 to take final action.

Second, on December 18, 2013, New York made a SIP submission to EPA intended as a revision to the Part 220, Portland Cement Plants and Glass Plants – Reasonably Available Control Technology (RACT) Determinations SIP. The proposed consent decree would require EPA to take action on this submission by February 29, 2024.

Third, on August 30, 2010, New York made a SIP submission to EPA intended as a revision for the Single-Source SIP Revisions, RACT Determinations (2010) SIP. The proposed consent decree would require EPA to take action on this submission by February 29, 2024.

Fourth, on September 16, 2008, New York made a SIP submission to EPA intended as a revision for the Single-Source SIP Revisions, RACT Determinations (2008) SIP. The proposed consent decree would require EPA to take action on this submission by February 29, 2024.

Fifth, on December 12, 2017, New York made a SIP submission to EPA intended as a revision for the SIP Revisions Incorporating 6NYCRR Part 218, Emission Standards for Motor Vehicles and Motor Vehicle Engines. The proposed consent decree would require EPA to take action on this submission by February 29, 2024. However, if New York withdraws this SIP

submission before February 29, 2024, EPA shall no longer be subject to this deadline for the withdrawn submission (or any withdrawn portion).

Sixth, on July 12, 2013, New York made a SIP submission to EPA intended as a revision for the Proposed Revision to State Plan for Large Municipal Waste Combustors SIP. The proposed consent decree would require EPA to take action on this submission by February 29, 2024.

Additionally, during the pendency of this litigation, in the ordinary course of its administrative action, EPA has taken final action on some of the SIP submissions originally at issue in the litigation.¹

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
